

Ogre::WorkQueue::Request
Handler

Ogre::Singleton< LodWork
QueueWorker >

Ogre::LodWorkQueueWorker

```
classDiagram
    class RequestHandler["Ogre::WorkQueue::Request Handler"]
    class Singleton["Ogre::Singleton< LodWork QueueWorker >"]
    class Worker["Ogre::LodWorkQueueWorker"]
    Worker --|> RequestHandler
    Worker --|> Singleton
```

The diagram illustrates the class hierarchy for the LodWorkQueueWorker. At the bottom is the base class, `Ogre::LodWorkQueueWorker`, which is shaded gray. Two arrows point upwards from this base class to its derived classes. A red arrow points to `Ogre::WorkQueue::Request Handler` on the left, and a blue arrow points to `Ogre::Singleton< LodWork QueueWorker >` on the right. Both derived classes are shown in white boxes with black borders.
